

Aditya Ganeshan

RESEARCHER, PREFERRED NETWORKS INC., TOKYO, JAPAN

EDUCATION

Indian Institute of Technology, Roorkee, India

Integrated Masters, Applied Mathematics,

Best Masters Dissertation Project: 10/10

Science Stream , Jawaharlal Nehru School, Bhopal, India

92% in class XII (C.B.S.E.),

Jul' 12 - Jul' 17

May' 02 - May' 12

WORK

EXPERIENCE

Researcher

Preferred Networks, Inc.

From December '18

- Paper titled **Meta-learning Extractors for Music Source Separation** proposing new model for source separation accepted at **ICCASP 2020**.

[Link to code](#)

- Paper titled **FDA: Feature Disruptive Attack** on task agnostic adversarial attacks on images accepted at **ICCV 2019**.

[Link to website](#)

- Built a Robot application prototype "FollowBot": Consisting of perception (pose-based commands, multi-person detection and tracking) and mapping system (Hector SLAM) on a real robot ROSBot.

- Built a bench-marking module for quantitative evaluation of path planning algorithms using ROS, Gazebo, and PFN's internal navigation modules.

Project Assistant

Video Analytics Lab, Indian Institute of Science

June '17 - November '18

- Paper titled **iSPA-Net: Iterative Semantic Alignment Network** on object pose estimation in RGB images to be published in **ACM Multimedia 2018**.

[Link to repository](#)

- Paper titled **Generalizable data-free objective for crafting universal adversarial perturbations**, to be published in IEEE Transactions on **PAMI**, on generating UAP for multiple CV task.

[Link to project page](#)

- Paper Titled **Object Pose Estimation from Monocular Image using Multi-View Keypoint Correspondence** on 3D pose estimation of objects using a multi-view approach to be published in **ECCV-W 2018**.

Teaching Assistant

Video Analytics Lab, Indian Institute of Science

June '17 - March '18

- Teaching Assistant for **DS-265: Deep Learning for Computer Vision**, at Department of Computational and Data Sciences, IISc, Bangalore.

[Link to website](#)

- Curated and presented an 11-lecture Course titled **Deep Reinforcement learning in Computer Vision** for lab members.

[Link to website](#)

GAME

DEV

A Special Place in Hell

BardOfCodes

June' 18

- Created a casual projectile-shooting game with a morbid sense of humour for the Android platform. Game on [Google Playstore](#)
